High Back Control Panel

Best viewing angle for better user experience.

Water Inlet Selection

The switch can control water inlet direction, switch to left to wash and right to.

Durable Body

The body design is mainly made of kind of material, which is hardly rusted and more flexible than steel material.

Magic Filter

The removable Magic Filter contains a mesh bag which helps to remove impurities and prevent possible secondary pollution.

AIR DRY

With the unique cover design, the water can be easily taken away from clothes by the inner air circle. This design can effectively improve the dewatering effect.
